Go alphadotty!

This book is jam-packed with lots of fun dot-to-dot puzzles, using the letters of the alphabet instead of numbers. Use a pencil, felt-tip pen, or colored pencils to follow the letters in each dot-to-dot. There is a question to answer on each page too!

The puzzles get harder as you turn each page. Don't worry if you get stuck with anything. The answers are at the back of the book.

The dot-to-dot pictures look good colored in. Choose your favorite colored pencils or felt-tip pens and color in as little or as much as you like.

When do you see me?

You see me at n____t.

My First Alphabet Dot-to-Dot

This dot-to-dot book uses the letters of the alphabet instead of numbered dots. It helps young readers to practice pen control, hand-eye coordination, and alphabet sequencing by joining the dots to complete colorful pictures. There are also questions on each page to add to the learning fun!
